

PROLYTE TRUSS H30V

UDL - Uniformly Distributed Load
CPL - Centre Point Load

Always load the truss from
node points or as close to
node points as possible.

5m span UDL = 387,1 kg/m

4m span UDL = 485,3 kg/m

3m span UDL = 649,0 kg/m

5m span UDL deflection = 28 mm

4m span UDL deflection = 18 mm

3m span UDL deflection = 10 mm

5m span CPL = 1.074,2 kg

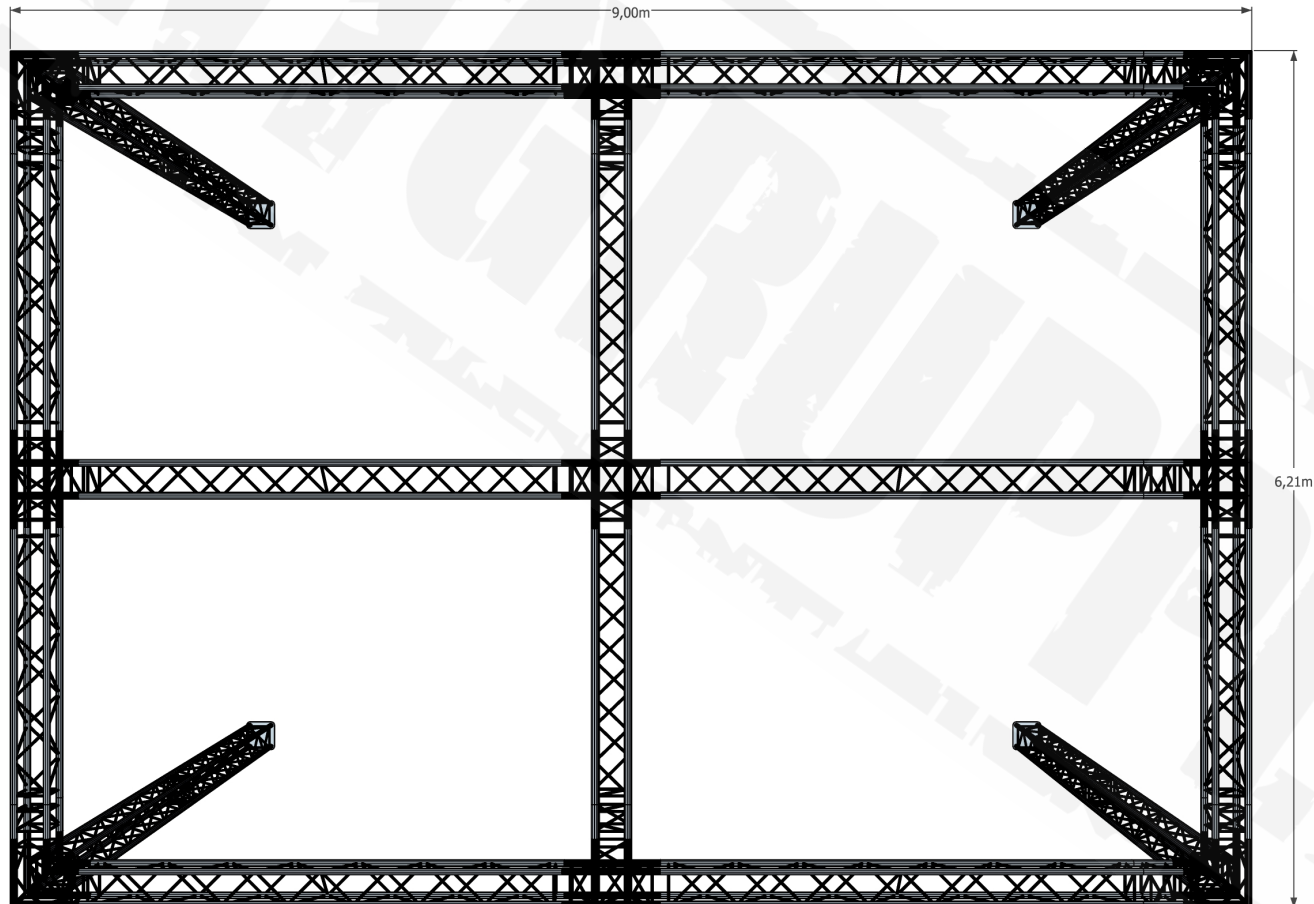

4m span CPL = 1,298,1 kg

3m span CPL = 1.667,9 kg

5m span CPL deflection = 23 mm

4m span CPL deflection = 15 mm

3m span CPL deflection = 8 mm
